Processing **real-time** command information

AE Gruber, SL Morein - US Patent App. 10/791,519, 2004 - Google Patents

... 22,2005 Sheet 2 of 6 US 2005/0210172 Al 160 166 **REALTIME EVENT COMMAND BUFFER**
SYSTEM **COMMAND BUFFER** 184f **...** commands are provided to the command processor 170
via the bus 168, the **real-time event** engines 172 and 174 **monitor event** signals 184a **...**

Dynamic clock control circuit and method

O Khodorkovsky - US Patent App. 11/928,111, 2007 - Google Patents

... the video signal should be processed in **real time** to facilitate display in **real time**. **...** activated through
a graphic user interface, software controlled timer, switch or other trigger **event**. **...** activity register
442, a graphics activity generator 444, a graphics engine **command buffer** 446, a **...**

All 8 versions

Dynamic clock control circuit and method

M Bounitch - US Patent App. 10/902,344, 2004 - Google Patents

... of 7 US 2006/0026450 Al DISABLE ALL MEMEORY CLIENTS (IE **3D ENGINE**, 2D ENGINE **...** For
example, video capture operations and gaming applications operate in **real- time** on a display. **...**
through a graphic user interface, software controlled timer, switch or other trigger **event**. **...**
